

RS e-tron GT

Peak performance
meets electric mobility

**Ready for the
racetrack**
with staggering power
outputs and
unparalleled agility.

**Endlessly capable
on the road**
as quattro takes its
next evolutionary leap
with electrification.

Unparalleled power outputs

Up to 646 PS and 830 Nm of torque are available instantly thanks to two electric motors that effortlessly deliver power to the front and rear axles.

A mode for every situation

With four drive modes to choose from, the RS e-tron GT fits effortlessly into every situation. Every element is adjustable, from power delivery to suspension stiffness.

Bend the laws of physics

Paired with rear-wheel steering and a rear axle differential lock, quattro is more effective than ever with torque distribution to the rear now being five times quicker than conventional mechanical systems.

The sound of e-tron sport

As part of the RS e-tron GT experience, you can choose how the vehicle sounds on the move - from whisper quiet to a synthesized digital sound that represents e-tron sport.
