

A5 Sportback

The Audi A5 Sportback.

The Audi A5 Sportback is in its most progressive form and functionality. With its sharpened design, refined suspension, powerful engines and innovative assistance systems, it is turning progress into a whole new experience.

The image shows the interior of an Audi A5 Sportback. The steering wheel is a three-spoke design with the Audi logo in the center. The dashboard features a digital instrument cluster with a tachometer on the left, a central display showing 'Fahrerassistenz' (driver assistance) information, and a speedometer on the right. The center console has a large infotainment screen displaying navigation and other functions. Below the screen is a climate control panel with two digital temperature displays (21.0 and 22.0) and various control buttons. The gear shifter is located in the center console, and the handbrake is visible on the right side. The interior is finished with dark wood trim and red leather seats.

**Where innovations
take shape: the interior.**

Turn your ideas into reality in the interior of the new A5 Sportback. From the seats, leather steering wheel in 3-spoke design with multifunction plus to the inlays. Every detail is made from high-quality materials and has a captivating first-class finish. For a unique look that is bound to turn heads.

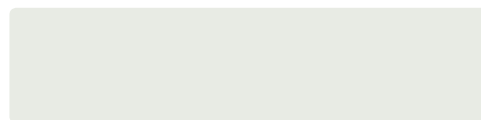

Perpetual progress: with the Audi virtual cockpit. The digital instrument cluster is versatile and innovative. The large 12.3-inch LCD screen presents everything in razor-sharp definition. From navigation, telephone to music.

Top marks for progressiveness. Impressive all along the line.

The curved side lines and the powerful wheel arches create the perfect setting for the Audi sport cast alloy wheels and lend expression to the quattro all-wheel drive. The flowing silhouette and crisp lines express an elegant sportiness and hint at the power of the engine concealed beneath the bonnet. With a higher power output, lower fuel emissions and the TFSI engine, the Audi A5 Sportback exceeds expectations when it comes to driving performance.
